Innovative learning that ensures students stay ahead

INDIC INTERNATIONAL SCHOOL, KOMPALLY - SHOWS THE WAY

A student-centric school, Indic International School, Hyderabad, constantly strives to ensure that the students are thriving in areas not restricted to academics. Integrating education by weaving various subjects together to provide a holistic experience of learning, students are motivated to delve beyond subject barriers and express their creativity through guided activities.

Indic International School, is perhaps one of the most promising and exciting schools to be established in the city of Hyderabad. There is so much that is special and distinct about this school that one is forced to pay attention.

The beautiful campus and cutting-edge infrastructure have already got a lot of parents talking about it and rushing to the school for admissions. However, what is even more enthralling is the other unique elements and

innovations that the school brings to education.

For instance, how about music being made a compulsory subject for all students and then bringing Shanker Mahadevan Academy to the campus to teach it? Or imagine getting every student at school to participate in dramatics and getting a dozen of theatre like Vinay Varma, to prepare the students in it. Or, indeed, imagine teaching Sanskrit to all students from LKG to Grade 8 and getting Dr. Sampdananda Mishra, one of the most well-known Sanskrit scholars in India, to set the curriculum and train teach-

Shanker Mahadevan

ers. Indic International School is where all of the above and more is happening, right here in Hyderabad.

One may wonder as to why music, drama, Sanskrit, sports and more have to be taught to all students. The answer to this, lies in the approach and objectives of education that the school adopts. The School firmly believes in the tenet that each child is gifted and it's the job of the school to discover the gift. "If you don't give an opportunity to the student, then how do you even discover the talent?" says Mithu Nag, Principal, Indic International School. Mithu Nag has around 20 years of rich experience across all

ADMISSIONS OPEN FOR THE ACADEMIC YEAR 2023 - 2024

boards of education and in different cities of India.

"How about academics?" Well, if that's the question in your mind, then you needn't worry at all. "The key is to strike the right balance. If you note, these modules are compulsory only till grade 8. Since Grades 9 to 12, are extremely crucial for the child's future career, academics become more rigorous and take precedence," says Hema Surapaneni, Director and Mentor of the school. Hema, with 30+ years of experience at her disposal and the expertise of having setup some of the most well-known

schools of Hyderabad, is amongst the most celebrated and awarded academicians of the city.

Besides the above, Indic International School, also has all other sports, facilities, labs, library and resources that one can ask for. From outdoor sports like cricket, football, basketball, volleyball, tennis, skating to indoor sports like Table Tennis, chess,

carroms, etc. Indic, has all the spaces covered.

Lastly another very interesting aspect about the school is its founder and chairman Ashish Naredi. Ashish, is an alumnus of ISB (Indian School of Business, Hyderabad) and as several parents may recognise, was the key member of a parent's association in Hyderabad. To put this in his

words, Indic International School is his way of walking his talk and addressing the several issues with education that he raised as a parent.
